PROFESSIONAL SUMMARY

I am a designer with strong creative roots. Over the years, I have cultivated a deep passion for the world of art in all its forms, with a particular focus on painting and sculpture. After graduating in Fine Arts, I decided to channel my creativity into an entirely new field: digital design, a sector that requires precise rules while still allowing ample room for inventiveness and creative expression. Through my studies at international institutions, I developed distinctive educational competencies by integrating traditional artistic knowledge with contemporary design methodologies. This experience abroad enabled me to refine essential soft skills such as adaptability, patience, the ability to work in multicultural environments, multilingual communication, and a strong sense of empathy-an essential quality in design. These experiences allow me to create digital solutions that are functional, creative, and genuinely user-centered.

SKILLS

User research and testing

Accessibility design

Wireframing and prototyping

Responsive design principles

Artificial intelligence integration

Design system implementation

Brand and visual design

Figma expertise

Adobe Creative Suite skills

Problem-solving abilities

EXPERIENCE

BRAND IDENTITY AND WEB DESIGN

Castello Ducale Colonna, April 2026–June 2026

- **Surveyed** target users via Survio to gather quantitative and qualitative insights on booking expectations
- **Audited** the existing website through a Nielsen heuristic evaluation and WCAG 2.1 accessibility review
- **Benchmarked** competitive positioning across 5 luxury hospitality brands
- **Developed** user personas and mapped their end-to-end journeys to surface key pain points
- **Restructured** the site's information architecture in Miro, including navbar and full sitemap redesign
- **Established** a complete brand identity system from scratch — logo, typography, and color palette
- **Produced** brand asset mockups using AI generation tools and Photoshop
- **Architected** a scalable Figma design system with a reusable component library
- **Engineered** custom micro-interactions in Figma, including hover states and Smart Animate transitions

- **Mapped** a complete booking wireflow using Visily prior to high-fidelity implementation
- **Delivered** 3 interactive prototype flows covering browsing, inquiry, and booking
- **Validated** design decisions through non-moderated usability testing with 5 participants via Useberry
- **Packaged** the project into multiple stakeholder-ready formats: a 100-page InDesign presentation, a 20-slide colloquium deck, a Behance case study, and a LinkedIn launch announcement

EDUCATION

MASTER IN UX/UI DESIGN AND AI AGENTS

[Start2impact University](#), June 2026

- Conducted user research and usability testing to gather insights and iterate on design prototypes, improving overall product usability.
- Designed intuitive user interfaces and seamless user experiences for web and mobile applications, enhancing customer satisfaction and engagement.
- Utilized design tools such as Figma, and Adobe Creative Suite to create wireframes, mockups, and interactive prototypes.
- Implemented responsive design principles to ensure consistent user experience across multiple devices and platforms.
- Analyzed user feedback and analytics to identify pain points and optimize user flows, increasing conversion rates.
- Maintained up-to-date knowledge of UX/UI trends and best practices to continuously enhance design quality and effectiveness.
- Developed and maintained responsive websites using HTML, CSS, JavaScript, and modern frameworks to enhance user experience and functionality.

BACHELOR'S DEGREE IN SCULPTURE

[Brera Academy of Fine Arts](#), January 2022

ERASMUS IN SCULPTURE AND COMMUNICATION DESIGN, Danzig, Poland
