PROFESSIONAL SUMMARY

Junior UX/UI Designer with hands-on experience across the entire product design process, from user research and accessibility audits to prototyping, design systems and usability testing. During my Master's at start2impact I completed multiple end-to-end UX/UI projects, including a complete redesign for a luxury hospitality brand. My Fine Arts background strengthens my visual thinking while my analytical approach allows me to design intuitive, accessible and user-centered digital experiences.

EXPERIENCE

Brand Identity and Web Design *Castello Ducale Colonna | April 2026 – June 2026*

- **Surveyed** target users via Survio to gather quantitative and qualitative insights on booking expectations
- **Audited** the existing website through a Nielsen heuristic evaluation and WCAG 2.1 accessibility review
- **Benchmarked** competitive positioning across 5 luxury hospitality brands
- **Developed** user personas and mapped their end-to-end journeys to surface key pain points
- **Restructured** the site's information architecture in Miro, including navbar and full sitemap redesign
- **Established** a complete brand identity system from scratch (logo, typography, color palette) and produced brand asset mockups using AI generation tools and Photoshop
- **Architected** a scalable Figma design system with a reusable component library and custom micro-interactions, including hover states and Smart Animate transitions
- **Mapped** a complete booking wireflow using Visily prior to high-fidelity implementation
- **Delivered** 3 interactive prototype flows covering browsing, inquiry, and booking
- **Validated** design decisions through non-moderated usability testing with 5 participants via Useberry
- **Packaged** the project into multiple stakeholder-ready formats: a 100-page InDesign presentation, a 20-slide colloquium deck, a Behance case study, and a LinkedIn launch announcement

JojobRT — Real Time Carpooling *UX/UI Case Study, Start2Impact | 2025*

- **Analyzed** the platform's existing user experience, identifying key usability pain points
- **Conducted** UX research and competitor analysis to define improvement opportunities
- **Developed** user personas and restructured the platform's information architecture
- **Designed** wireframes and high-fidelity UI aimed at a more intuitive, accessible experience
- **Built** interactive prototypes and ran usability testing to validate design decisions
- **Integrated** AI tools into the design process, developing the concept for an AI Agent to assist users in finding rides and personalizing their experience

POF: Planty of Food *Brand Identity Project | 2024*

- **Designed** the visual identity system for a food-sustainability brand, including logo, color palette, and custom icon set
- **Developed** brand assets and materials using Illustrator, InDesign, and Photoshop, aligned with the brand's natural and eco-conscious values
- **Defined** brand guidelines (visual tone, typography, applications) to ensure consistency across touchpoints
- **Designed** social media templates and visual content, adapting the brand identity across digital formats

EDUCATION

Master in UX/UI Design and AI Agents *Start2impact University | 2024 – 2026*

Completed 12 projects: covering graphic and visual design, research, accessibility, interaction design, visual design and usability testing.

Bachelor's Degree in Sculpture *Brera Academy of Fine Arts, Milan | 2017 – 2022*

Erasmus+ in Sculpture and Communication Design *Akademia Sztuk Pięknych w Gdańsku, Poland | 2019 – 2020*

SKILLS

Design: UX Research, User Interviews, Personas, Journey Mapping, Wireframing, Prototyping, Interaction Design

UI: Design Systems, Responsive Design, Accessibility (WCAG 2.1)

Tools: Figma, Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Miro, Canva, HTML/CSS

AI: AI-Assisted Design, Prompt Engineering, AI Prototyping

Soft skills: Collaboration, Problem solving, Adaptability, Communication

LANGUAGES

Italian: Native | English: B2 (Cambridge Certificate) — TOEIC 820 | Spanish: Beginner
